

BUREAU OF ENGINEERING REVIEW OF APPLICATION FOR INSPECTION OF SIGNS  
FORM B&S B-5

---

1. Complete legal description furnished by applicant.
2. Tract must be recorded.
3. Job address for sign location.
4. Enter the District Map number.
5. If highway dedication is required, refer to Engineer assigned to give this clearance.
6. The signature and date approving the address should not be affixed to the application until all other required clearances have been provided.

BUREAU OF ENGINEERING REVIEW OF APPLICATION FOR NEW SWIMMING POOL  
FORM B&S B-52

---

1. Complete legal description furnished by applicant.
2. Tract must be recorded.
3. Job address for swimming pool.
4. Enter District map number.
5. Verify cross streets.
6. The signature and date approving the address should not be affixed to the application until all other required clearances have been provided.
7. Sign and date if sewers are available and all applicable sewer fees have been paid. See Section C 377 for further information.

If fees are due, the sewer is not available. The fees must be calculated and shown on the appropriate line. Also, attach a copy of the sewerage facilities charge calculation sheets to the building permit application.

8. Driveway clearance, if applicable.
9. Signature of Engineer assigned to give dedication clearance, if applicable.
10. This approval must be obtained from the Engineer authorized to give storm drain clearance.
11. Enter any special restrictions, clearances, or comments in this box.
